## INTERNSHIP AT UNI SQUARE CONCEPTS

Internships are very famous among the college students, which gives them a real life exposure about how an organisation in the market works. Uni Square Concepts offers internships, during which the students get to learn by directly attending the client's requirements, thus experiencing a proper and enlightening exposure at the real work space, rather than the usual internships, in which the interns only get coffee or do miscellaneous work.

The best possible way for a student to spend their vacations, is to go for summer internships. At Uni Square Concepts, from content writing to human resource, the internship covers a wide variety of activities. Also, the company pays stipend, which encourages and motivates the interns and helps them to perform to the best of their abilities. The company specializes in Search Engine Optimization (SEO), which is a totally new concept and also gives proper explanation regarding the functioning and methodology used in the functioning of the enterprise, to the interns. Uni Square Concepts is a leading Social media agency, which provides the services of Search Engine Optimization to its client. The interns are especially trained and nurtured in this field.

Since the company specializes in Social media marketing and is a digital marketing agency, it uses the latest software and technology developed in the market, also teaching its interns the minute techniques and methods of using each and every software, giving them an advantage of being recruited easily as they have already accomplished the skill of learning the software.

The screening process for hiring the interns is a very tough task, as the interns go through a hectic procedure to get selected. The interns are screened on their determination to work, career plans etc. After successfully completing the internship, the individual gets a lot of opportunities for jobs, as it has a competitive edge over others, since it already has some experience of working in the real world. The training is only possible with the help of the dedicated, motivating and hard-working personnel of the organisation and under a commanding leader.

The personnel at Uni Square Concepts look forward to hire interns based on their academic as well as co-curricular efficiency. A proper Curriculum Vitae (CV) of the intern, which must include their academic as well as achievements in various other fields, is required and they are called for interview. If succeeded in the interview, the digital marketing agency hires the intern.

So, to become a part of such a reputed organisation, an intern has to face various tests and interviews and has to work really hard to get each and every aspect, to follow how this amazing Social Media agency functions.
