

BALAJI
EXPLOSIVES LTD.

GLOBAL LEADERS IN COMMERCIAL EXPLOSIVES & BLASTING

— COMPANY PROFILE —

ABOUT US

Balaji Explosives Limited is a registered company dealing in the manufacturing and supply of explosives and related services. We specialize in various kinds of explosives and slurry explosives. Besides, we have also ventured into providing subsidiary services like drilling, blasting, mining and construction. Registered under PACRA, Zambia, we possess of an experienced team who have a proven background in the industry.

Balaji Explosives Limited is backed by a state of the art plant, expansive R&D department and strict International quality standards.

We are a sister concern of Aravali Explosives and Chemicals, which is an ISO 9001:2015 certified Company headquartered in India. Aravali Explosives and Chemicals was established in the year 1999.

MISSION

To become the best and the most sought after company in the explosives industry.

VISION

To be known for quality, ethics, trust and reliability, on a global scale.

OUR DIRECTORS

KRISHAN DEV MATHUR

K.D. Mathur is a versatile leader and an able manager. He possesses a vast experience in the manufacturing of explosives and its accessories. Backed by the elaborate knowledge and competencies that has been bestowed to him via his family business, our director belongs to a family which is engaged in the manufacturing of explosives since decades, under the brand of Aravali Explosives and Chemicals, a renowned name in the Indian explosives industry.

GORLA ANJANA REDDY

Situated in Zambia for over one and a half decades, G.A. Reddy is familiar with the local market like the back of his hand. Mr. Reddy boasts of having a vast experience in drilling and construction work. He is engaged in the industry since 2004. Besides Balaji Explosives Limited, our director is also the owner and director of a leading construction company in Zambia, Balaji Construction Limited. Having him as a director, brings a major advantage to the company.

PRODUCTS

Using the expert backing that we have received by our sister concern, Aravali Explosives and Chemicals in manufacturing of explosives and related material, we would be pioneering in the manufacturing of the following:

- > SLURRY EXPLOSIVES
- > EMULSION EXPLOSIVES (CARTIDGE)
- > DETONATORS (MANUFACTURING)
- > DETONATORS (ASSEMBLY)
- > DETONATING FUSE
- > DETONATING FUSE CORDS
- > BULK MIXED EXPLOSIVES
- > ANFO (AMONIUM NITRATE FUEL OIL)
- > FUSE HEADS
- > PROPELLANTS
- > SAFETY CARTRIDGES
- > OTHER EXPLOSIVE PRODUCTS

AREAS OF EXPERTISE

Apart from manufacturing explosive products, Balaji Explosives Limited aspires to spearhead into several other subsidiary industries by providing supplementary services. Such services include drilling, mining, and other construction related activities.

We aim to serve a vast clientele, using the latest technology and dynamic industry experience.

MANUFACTURING PLANT

The manufacturing plant of Balaji Explosives Limited will be situated in a 250 Hectare land located in Village Keya, District Mushindamo, North Western Province, Zambia. The vast area will provide us a scope to construct the factory using the latest technology and will provide a scope to build upon a systematic floor plan, enabling smooth operations and increased productivity. The 250 acre land has been already acquired by the company.
