**25 YEARS OF ENABLING
ORGANISATIONS SAIL THROUGH TECHNOLOGICAL
ADVANCEMENTS**

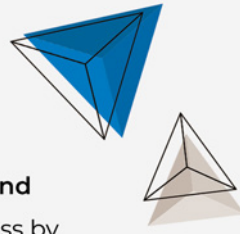

ABOUT US

We care deeply about what we do and what we create, for our customers, employees and the nation as whole. **At Megasoft, we embrace change** and work towards making this change easier to adopt.

We are a company with **decades of experience and a deeply rooted value system** that forms the core of our existence. We have years of experience in successful **designing and development of 360 degree IT solutions and services** specialising in Systems Integration and Turnkey Projects. With our expertise in **software development, infrastructure establishment and network services enhancement**, we have been able to spread our wings across India and Asia Pacific regions.

We have helped **Banking, Manufacturing and Government sectors** to expand their business by providing them most efficient and customer-centric services. Our journey is adorned with many achievements and accolades. We take pride in **pioneering digitisation at all three levels of co-operatives in India** with the ability to share real-time data. Offering quality solutions has been inherent to our existence and so we are an ISO 27001 and ISO 9001:2015 Certified Company.

We are a team of geeks and techno heads who are firmly **committed to continually working towards improving processes and systems** for a sustainable economic growth.

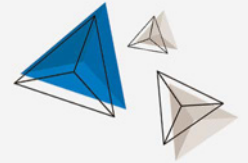

MISSION

On the glide path to create simplified and technologically driven business systems.

VISION

To empower organizations for technological transformations, leading to building a progressive nation.

CORE VALUES

We are a value driven organization with the pure intent to benefit our customers by offering them need based solutions. In our journey of more than 25 years, our values have helped shape the culture of our organization.

> INTEGRITY

Being honest and inspiring trust through our behaviour and responsibility driven actions.

> VALUE CREATION

Creating long term relationships by being responsive and responsible for delivering value to our clients to help them develop high-performing businesses.

> TEAM SPIRIT

Understanding that building a successful organisation is a team effort and valuing diversity of every individual working here at Megasoft.

> SIMPLICITY

Ensuring simplicity to be the core of what we create and how we deliver, as it's the simple things that require most innovation.

OUR EXPERTISE

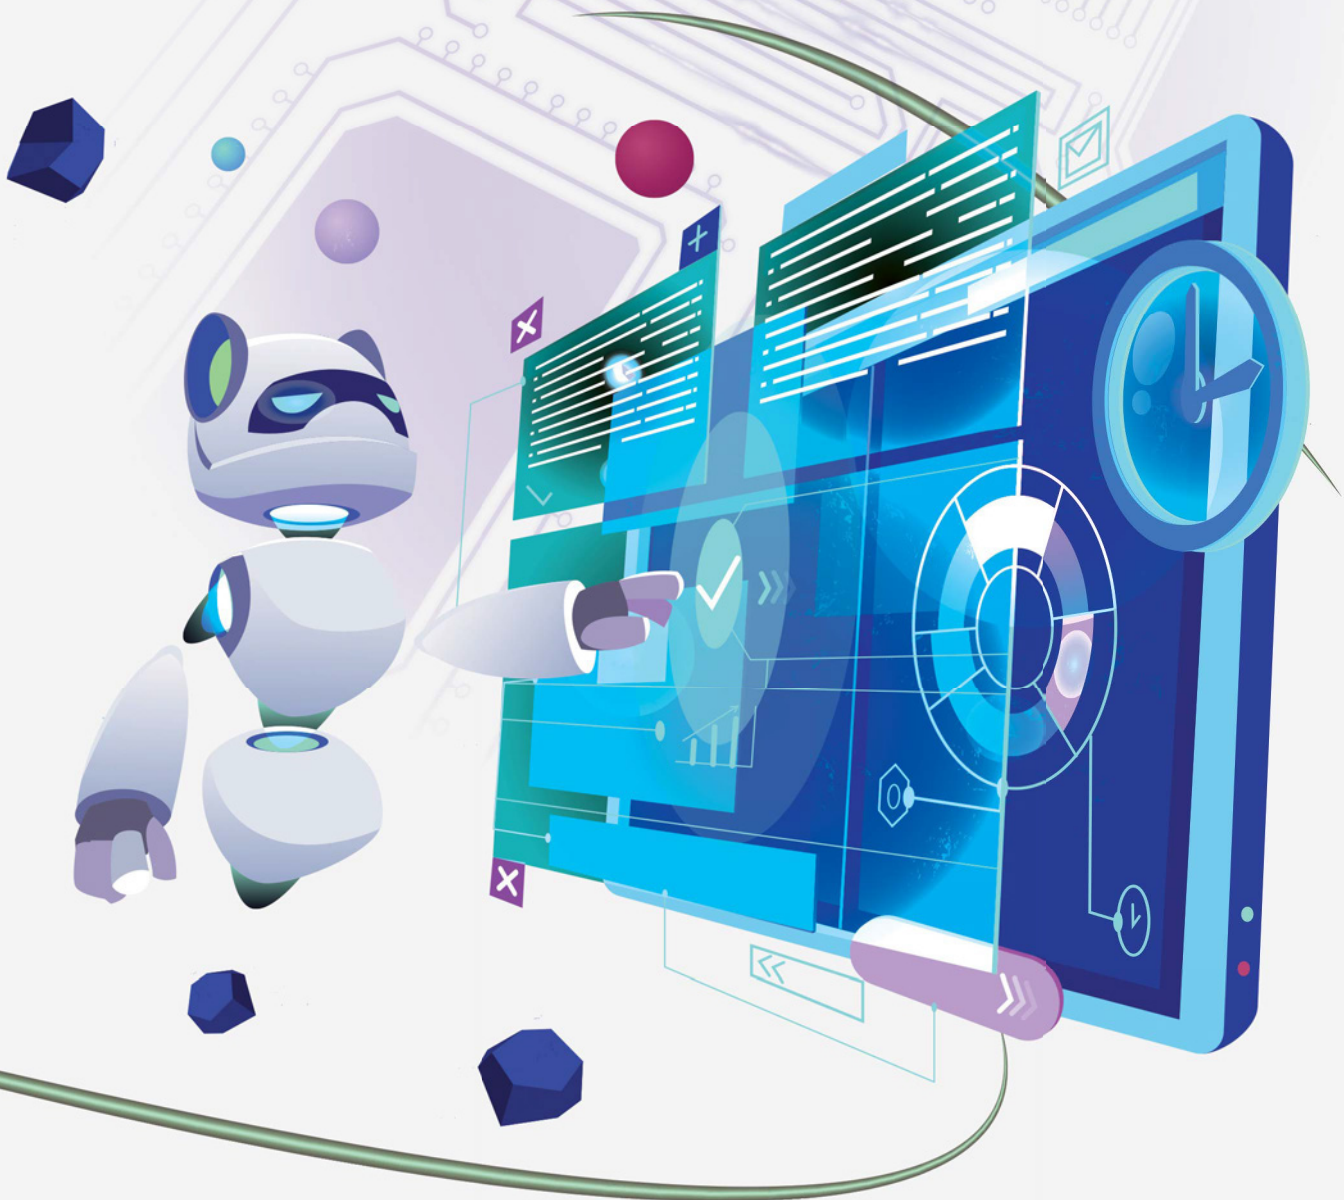

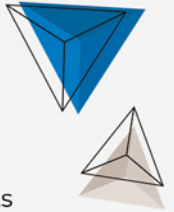

We are experts in our domain and in **offering comprehensive IT solutions** to FinTech companies, Government organizations and Corporates.

Our edge lies in **development of mission critical applications and products for FinTech companies**. We also undertake software development projects for corporates and agencies in the IT domain specifically targeted at achieving growth through **implementation of Business Intelligence and Business Analytics**.

We have excelled in **offering Data Centre Infrastructure services** and have been able to **transform entire organizations** to digitalisation.

Being in business for almost 25 years, has empowered us to foresee business requirements and adaptations to enable them to work in the modern environment. With a **diversified portfolio of secure solutions**, we have been able to offer the banking sector robust products and services to help them provide customer-centric services ahead.

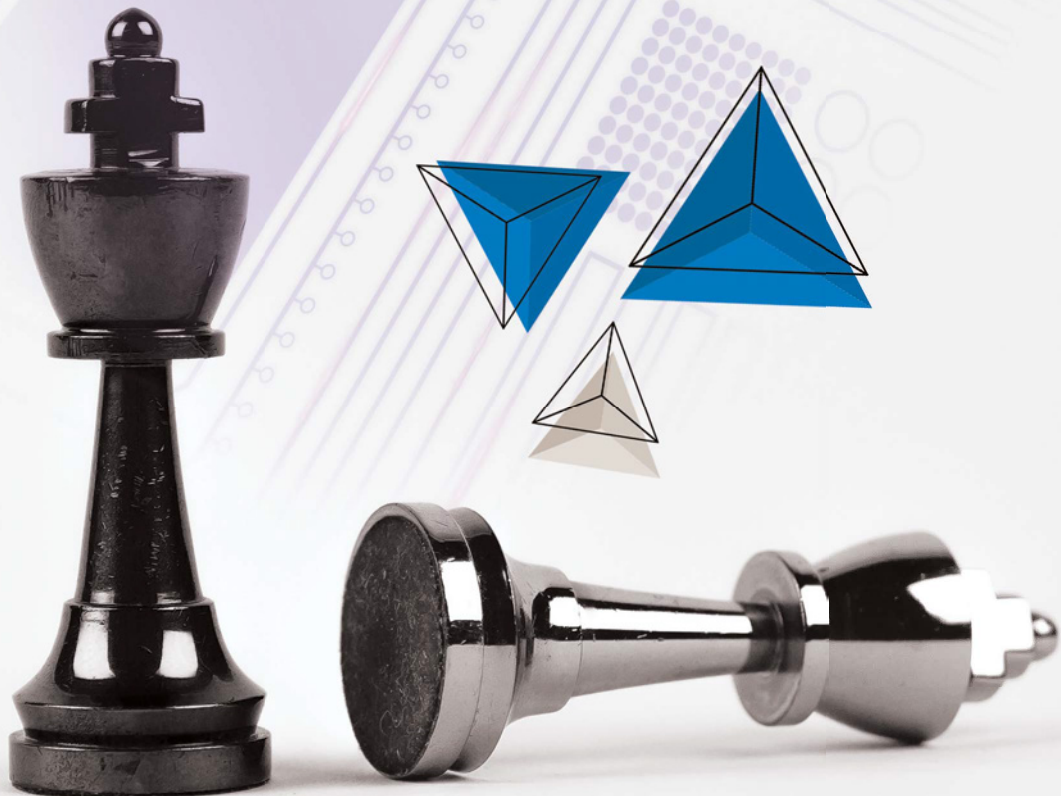

Our is a more **holistic approach** that works at the breadth and depth of an organization. We are technical re-architecting solution providers to Financial, Manufacturing and Government sectors. We undertake a systematic approach to **audit the IT real estate of the organisations**, finding the core purpose and then strategically bringing in the new tools for the long-term growth.

ACHIEVEMENT HIGHLIGHTS

We innovate to improve the way the businesses work. Here are our accomplishments as a responsible organisation and thought leadership.

- **Our client; Rampur District Central Co-op Bank was declared as the winner of 'Inclusive Excellence Awards, 2015'** for Outstanding Performance in Technology in the segment of Financial Inclusion.

- **Implemented digital banking channels** such as RuPay, KCC, NEFT, RTGS, ECS, POS, ATMs, BNAs, AEPS, DBT, PFMS, NACH etc. in various districts.

OUR USP

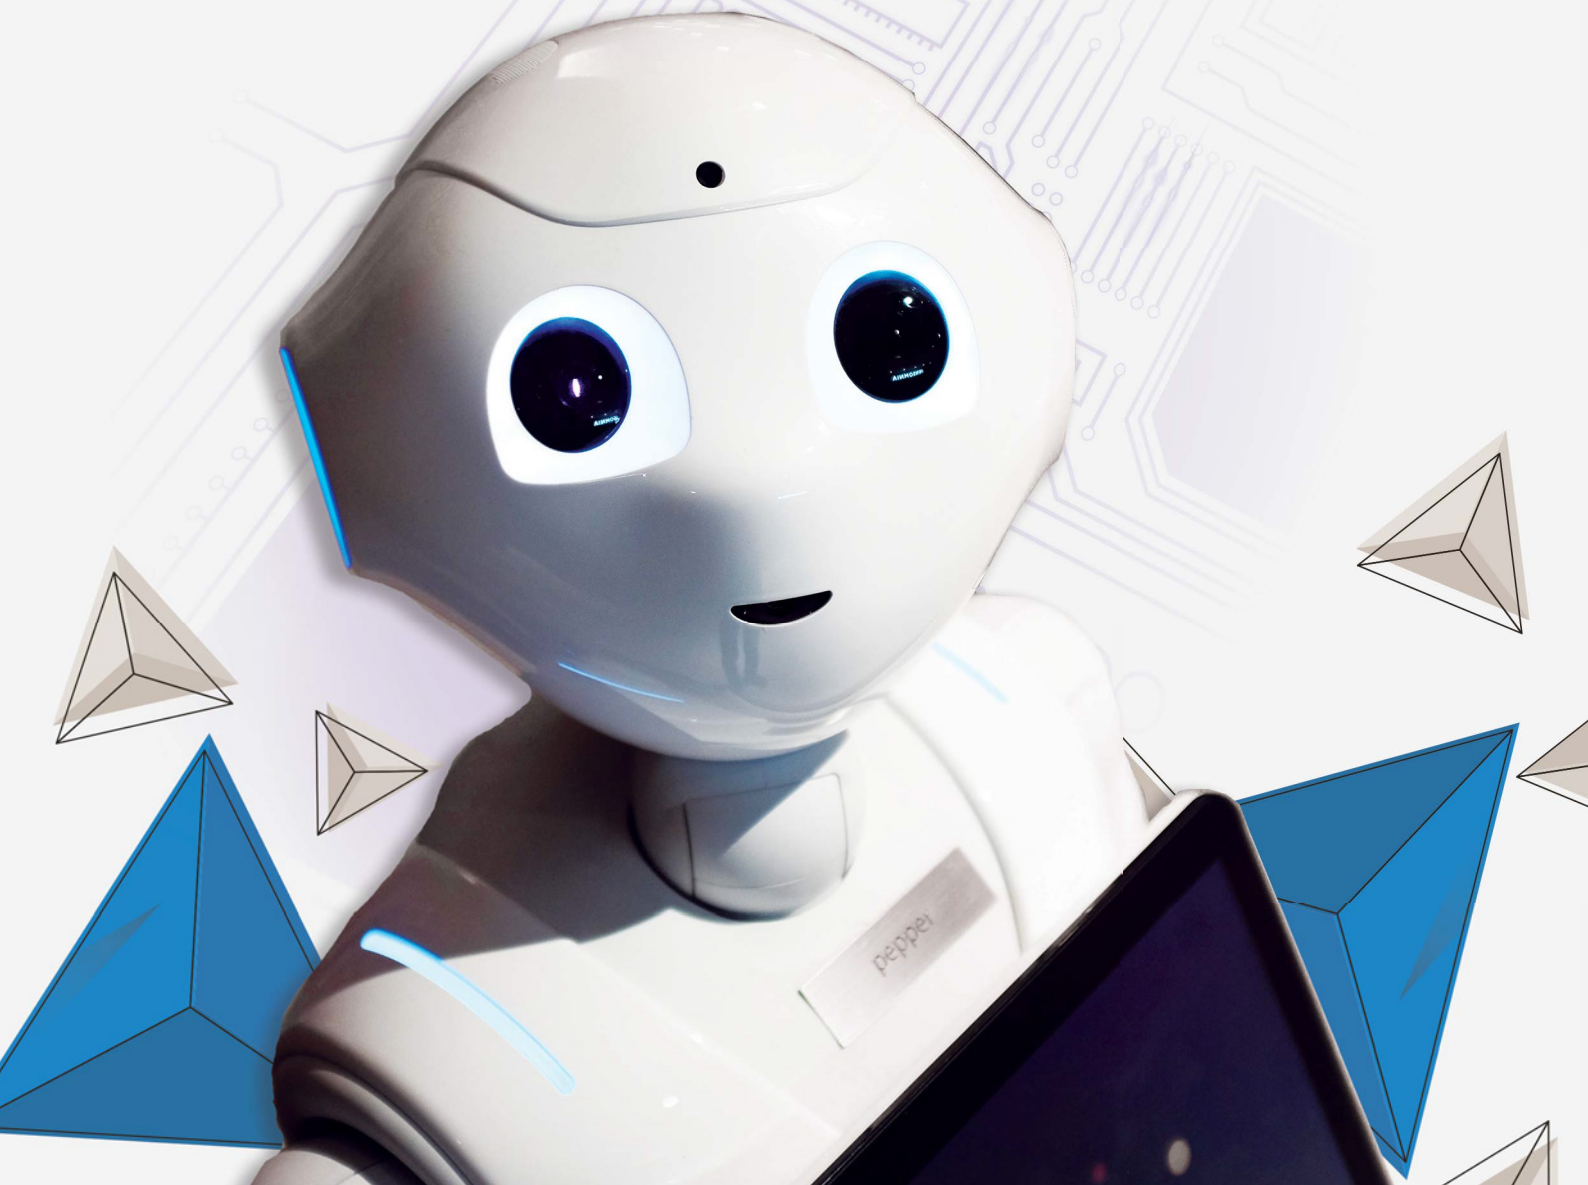

As a One Stop IT Solution provider, we feel ourselves privileged to **work at the core of organizational process improvement and enhancement.**

Our solutions are designed out of the organisation's need and the ultimate goal it is to achieve. Our existence is not monetary driven, rather we are a **purpose driven organization.** We take it as an opportunity to act responsibly to streamline the transformation process with ease.

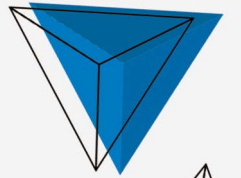

Technology is fast paced and constantly changing, thus we as experts ensure to **provide a solution that is targeted towards achieving modern way of working.**

We are futuristic, yet develop the solutions that are customised as per current problems and bottlenecks. We aim to help our clients surpass their constraints and achieve a **long-term successful business.** Whether we are to modernize core business operations, turn a banking experience for the customers or reinvent the payment models, our **expertise lies in empowering the clients with data-driven insights and the right tools and techniques** to develop a mindset not just for today's but for tomorrow's digital landscape too.

We act as **partners in the digitalisation process** and ensure the Xs and Os are combined to make a scalable, robust and functional platform.

OUR FLAGSHIP PRODUCT

EasyBank

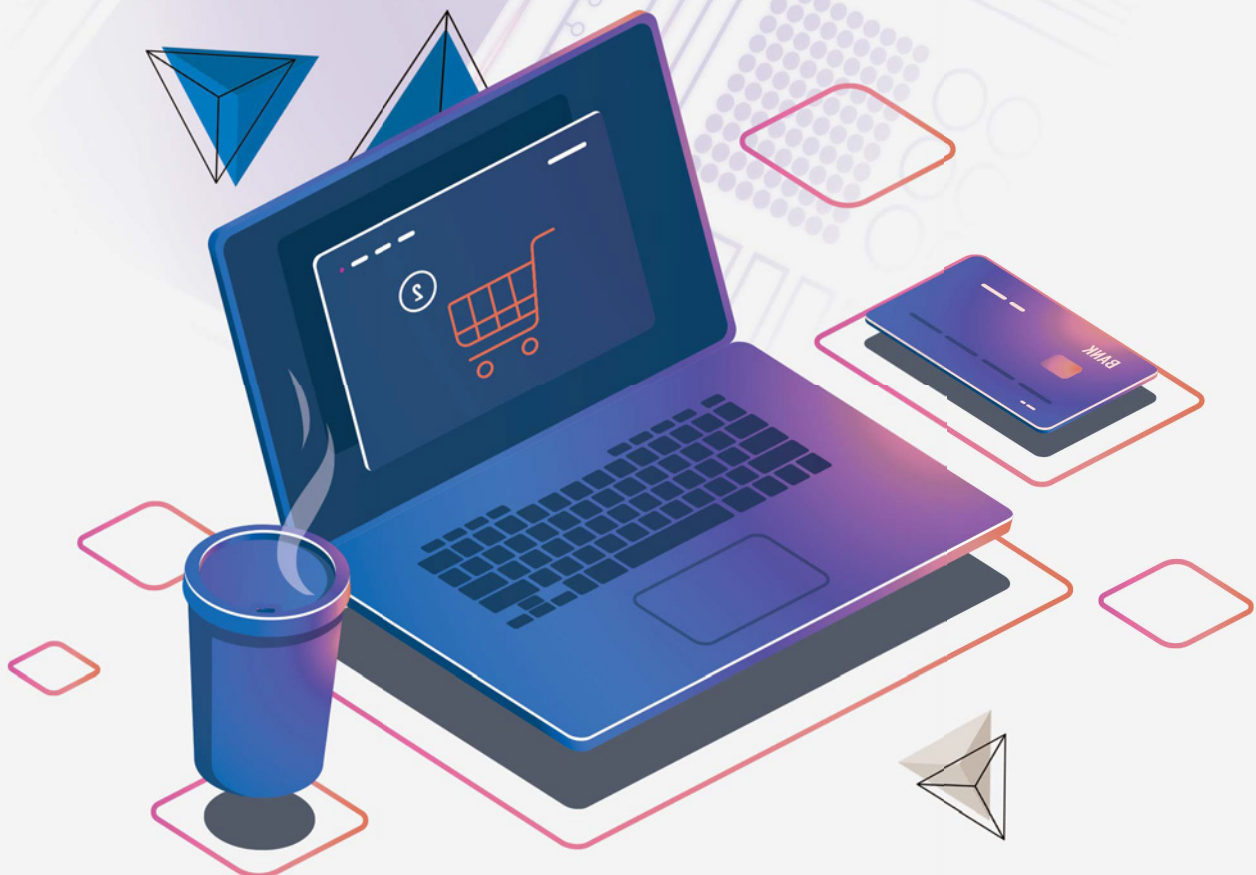

EasyBank is our Flagship product and covers all the banking modules. It is a highly comprehensive platform created to improve efficiency at all levels. Based on N-Tier Architecture, the software is developed using latest technology and is based on Service Oriented Approach (SOA).

EasyBank offers ease of operations with pull down menus and a highly interactive graphical user interface.

Its features include:

- Easy to use with simple user interface
- Highly secure platform with multiple level security system.
- Access via Biometric Security System and other 2 factor authenticate system
- Web based and light platform
- Completely parameterized platform

- Easy to navigate due to a simple and user friendly interface
- Relevant for full cash management and verification process that can be handy to use by tellers, vaults and even Head Office.
- The inbuilt workflow and messaging feature allows quick approvals leading to improved efficiency
- Features a user solvable validating system
- Designed with dynamic transaction validating system
- Pre-designed templates for quarterly, half-yearly and annual processes and closing, thereby avoiding chances of any human error.
- Ability to create custom dashboards to enable quick analysis
- Fully customisable reporting system
- Single-button process management
- Ability to create circulars, notifications and alerts
- Designed to offer maximum control on revenue leakage

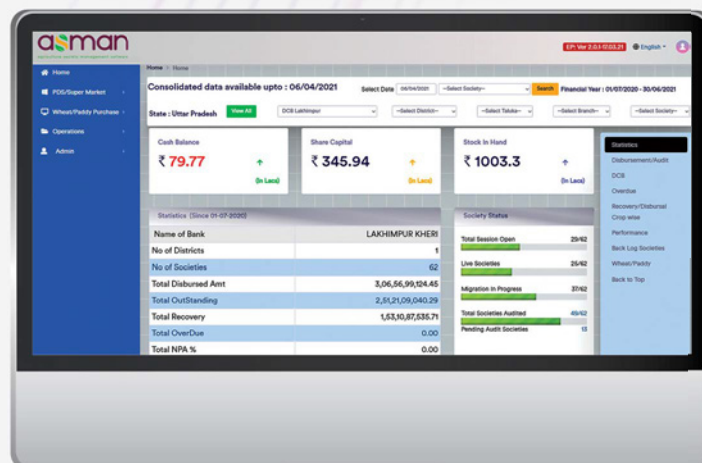

OTHER PRODUCTS

EasyPACS

EasyPACS is an efficient centralised software solution that takes care of complete day-to-day functionality of primary agriculture credit society (PACS). It is a centralised accounting system, which can be integrated at the Centre Level to enable the ease of monitoring and controlling financial aids, Interest subvention and subsidies, thereby resulting in fast and error-free disposal of transactions. It is in compliance with common accounting system and is based on the guidelines issued by NABARD. The software is intelligently designed for easy integration with the Core Banking Software of the District Co-operative Banks to permit real-time data sharing for real-time changes in Limits, Transactions and synchronisation of balances with the Bank. EasyPACS also supports digital payment transactions at the PACS level through RuPAY/KCC Card, MicroATM, RTGS/NEFT and other digital initiatives by the Bank.

Its features include:

- Designed to cover all the modules of centralized accounting system (CAS)
- Centralized and easy processing of loan applications and disbursements.
- Login Id and Password provided for each PACS and other monitoring agencies with PACS ERP.
- Single point database management for all PACS' in a state.
- Provision of collating Taluka-wise, District-wise and State Level Consolidated Statistical Reports
- EasyPACS ensures adaptation of a Uniform System
- Monitoring made possible at DCB Level, RCS Level, SCB Level and NABARD Level
- Easy and quick deployment of changes in processes or schemes
- Can be implemented with limited infrastructure facilities.
- The Mobile Device Interface eases the provision to offer door-to-door services
- Interface with KCC Card/ Smart Card/ Loyalty Cards and Payment gateways through DCB/CBS made possible
- Access to additional modules such as PDS, Tax Collection, Utility Bill Collection etc.
- Real-time permissible data sharing to and from DCB/CBS helps avoid double entry and maintain real-time data updation
- Equipped with MIS
- Dashboard at various levels ensures enhanced visibility
- Create performance monitoring system through set parameters
- Other features and modules:
 - Super Market Billing and Inventory
 - PDS Module
 - Warehouse Billing and Management
 - Fertilizer, Seeds & Farm Equipment Mgmt
 - Hiring of Farm Equipment
 - Crop Procurement

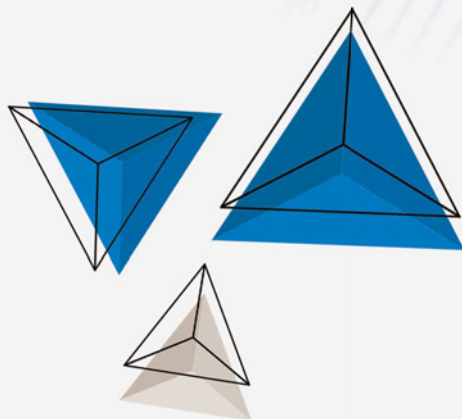

EasyHO

Highly compatible and simplified Head Office management system that provides access to more information in more places, anytime and anywhere. Some of the modules included in EasyHO are:

- Manage Head Office Accounts with ease
- An end-to-end admin & payroll management module
- Analyse processes, information and behaviour that work towards shaping your investment management
- In-built Loan Management System suitable for both agriculture & non-agriculture segments
- Manage your inventory efficiently and effectively
- Compatible for Fixed Asset Management too
- Supports Establishment & MOU
- Obtain access to statistical and MIS Reports for making better business decisions
- Ease of filing RBI Returns
- Facilitates preparation of AIR Returns

EasyLMS

EasyLMS is the Loan Management System which is a complete solution to modernise and streamline profitable lending growth structure without disruption. It is an end-to-end loan management system with high level security for a digitized and improvised lending process.

EasyAML

Detect frauds and mitigate risks with a strong anti-money laundering system based on sophisticated algorithms and smart process automation to reduce overheads and costs.

EasyCTS

Cheque Truncation system for faster clearing of cheques by eliminating the flow of physical movement of cheque. EasyCTS system helps gain significant speed and operational efficiency apart from being cost effective and ability to offer better service experience.

KisanMitra

An innovative solution that offers Micro ATM application for Android Devices. It supports faster processing of transaction by reducing the documentation requirements. All forms of digital transaction can be done through the system along with biometric verification.

EasyCIC

The EasyCIC system allows banks to upload their customer's credit information, which can be readily accessed by rating agencies such as CIBIL, CRIF, etc. Based on this data, the credit agencies prepare a Credit Report of an individual or a company, as the case may be.

EasyRECON

Our EasyRECON system is a reconciliation software to aid mirror bank transactions from various ends, for managing net payments and receipts. This enhances the accuracy and efficiency of the account reconciliation process. EasyRecon facilitates the reconciliation between the Banks, Branches, Digital Payments like ATM, POS, Ecommerce and NEFT/RTGS.

EasyGST

EasyGST software enables GST return filing, by collecting Sales, Service and Purchase Data from the ERP/CBS System. It also supports management of Monthly, Quarterly and Annual Returns after calculating the ITC and GST Payable each month.

EasyNET

Our EasyNET system is an internet banking software with multi-layered security provision to the Bank customers. It is a highly customisable software as EasyNET features can be configured from bank to bank depending on the services offered to its customer base.

EasyTAB

The Tab Banking software to provide seamless financial services at the doorstep of the customers, leading to increasing operational and functional efficiencies.

mPassBook

Mobile Passbook customer application to enable users access their bank account transactions through a user friendly mobile application.

EasyMOBILE

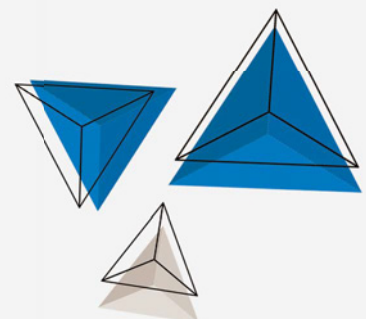

Mobile banking software is a platform for banks that enable them to offer financial products and services to their customers through mobile applications. EasyMOBILE enabled with Digital Payments like IMPS, NEFT, RTGS and UPI.

EasyCKYC

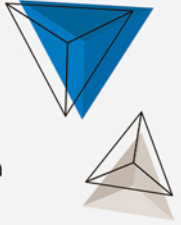

The Central Know Your Customers system to store and safeguard KYC records in a digital form. EasyCKYC can be integrated with the existing Core banking Software with APIs and uploads and downloads the required data to the Statutory Agency portal.

CUSTOMISED SOFTWARE SERVICES

A custom software development service to suit your business needs and aligned with your organizational goal to ensure smooth functioning.

Dinesh Shetty
Managing Director
Megasoft Information Systems Pvt Ltd

Megasoft Providing Niche Solutions to BFSI Sector

Megasoft has a long history of expertise in banking and IT-infrastructure with more than two decades of experience. Megasoft is also a system integrator for e-governance and healthcare domains with solutions being executed with various partners and Original Equipment Manufacturers (OEM), says **Dinesh Shetty**, Managing Director, Megasoft Information Systems Pvt Ltd, in conversation with **Arpit Gupta** of **Elets News Network (ENN)**.

"Megasoft will continue to provide quality products and services through new technologies and platforms."

Please give us an overview of Megasoft.

Megasoft Information Systems Pvt Ltd is a core banking solution provider for financial institutions in India. Megasoft provides end-to-end solutions to financial institutions ranging from infrastructure, networking to application software.

With over two decades of expertise and a host of quality offerings in products and services, Megasoft has established itself

as a premium player in the space of information technology across India and Asia Pacific.

Our vision is to enable customers improve their operational efficiency with the help of technology to optimise, scale and perform effectively and efficiently. Megasoft believes in offering quality and affordable IT solutions to its customers and works closely with them in project management, advisory, consulting, implementation and capacity building.

With these offerings, Megasoft is still striving to achieve the highest degree of satisfaction amongst our clients.

What is your vision of IT in the cooperative sector? Tell us more about Megasoft's digital solutions which are being implemented in the Cooperative Department of Uttar Pradesh.

Empowering the cooperative sector with digital channels and implementing new age technologies is our vision.

In Uttar Pradesh, district co-operative banks were the first on three-tier architectures to issue RuPay Card/KCC card in February 2014; bank on wheels in July 2015, and thereafter implementation of digital channels like Direct Benefit Transfer (DBT), Aadhaar Enabled Payment System (AEPS) and Public Financial Management System (PFMS) with an aim to boost cashless economy and benefit farmers.

In Uttar Pradesh, currently:

- District co-operative banks and primary agriculture co-operative societies share limited permissible data in real-time
- Farmers get subsidies, DBT, PFMS credited to their account directly
- Has the access to entire NPCI ATM networks in India through Rupay/KCC Cards
- Farmer has the option to withdraw money from his savings account or KCC account through a single card
- Real-time data updation, and thus, eligibility check both at district co-operative bank level and PACS level
- Micro ATMs are deployed at PACS which are transacting on BC model with banking transactions like withdrawals, deposits, balance enquiry and purchase of seeds and fertilizers through their Rupay/KCC cards

Megasoft has expertise in banking, IT-infrastructure, education, e-governance and

healthcare. What are your major offerings?

Megasoft has a long history of expertise in banking and IT-infrastructure with more than two decades of experience. Megasoft is also a system integrator for e-governance and healthcare domains with solutions being executed with various partners and Original Equipment Manufacturers (OEM).

"The district co-operative banks and primary agriculture societies share the limited permissible data in real-time."

In banking and IT-infrastructure we provide:

- Core banking solution to banks'
- Integrated Common Accounting System for PACS'
- Head Office Management Suite for banks
- Microfinance solutions
- Anti-money laundering
- Payment solutions
- Loan Management System
- CKYC, AEPS, DBT, PFMS, etc
- Cyber security framework advisory and implementation
- Cognitive analytics and big data services
- Infrastructure advisory and services
- Idea and innovation management platform
