WE AS A CONSULTANT

ABOUT US

• Phoebosol promises to offer superior technologies & high-end road infrastructure services, alongside quality materials and expert manpower solutions:

We are actively involved in dealing with road infrastructure projects backed by a team of highly experienced technical manpower from various disciplines. We ensure use of latest technology alongside supplying high-quality materials, we hold expertise in tasks like soil work and fabrication work. To maintain the quality of the project we also supply the earthmoving devices for road development projects. We have full active involvement in supplying highway construction materials.

• Phoebosol gives you a complete service package by providing you with **Advance Traffic Management, Road safety, LED & Lighting solutions:**

With the help of highly-skilled engineers, architects, constructors, geospatial professionals, and owner-operators, along with detailed technological solutions for advancing infrastructure, we offer sustainable and environment-friendly energy solution for better infrastructure development. We basically deal with Advance Traffic Management projects that incorporate offering speed sensors, cameras and CCTV cameras. We just want to serve the highway commuters a better way. We also deal with road safety products by providing with traffic light, safety beacon, speed bump, UV-protected traffic cone and so forth. With our high-quality LED & lighting support, we just want to offer a sustainable and eco-friendly infrastructure

• Phoebosol is your reliable solution provider of **Smart Toll Plaza, Green Highways, and Highway Management and maintenance:**

Be it offering Smart Toll Plaza operation services, handling Green Highway Projects, or providing with high-end highway management services, we take an oath to be your own reliable solution provider.

• Phoebosol takes an oath to offer you **Renewable Solar Energy sources:**

We believe in state of technologies. We have already taken a big step in terms of offering renewable energy resources. A lot of solar projects are being handled by us presently and in fact, we do provide solar road lights, solar power systems and solar home lighting solutions in the rural and urban areas. With our solar-enabled solutions, we take an oath to offer energy sources to each and every house and workplace.

Creating a safe and sustainable future through building technology driven and smart Infrastructure.

JOINT VENTURE OPPORTUNITIES

PHOEBOSOL is open to work in partnership with private sector companies from road infrastructure, Highway Traffic Management System and IT Sector in a project specific joint venture format. We are keen to form a Joint Venture to execute intelligent transportation system, Road safety, green highway and road infrastructure projects. You will find that initiating contracts or developing partnerships with PHOEBOSOL is a straightforward and uncomplicated process.

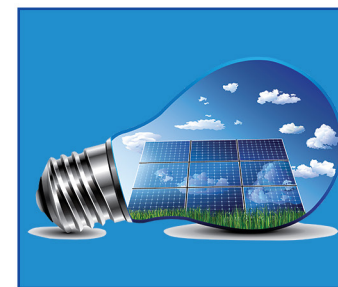

SERVICES

ROAD INFRASTRUCTURE

Working on road infrastructure is included in our biggest dealings. With an objective to ensure safety, reduced travel time and aided by the comforts of a world class infrastructure, we are actively involved in dealing with road infrastructure projects.

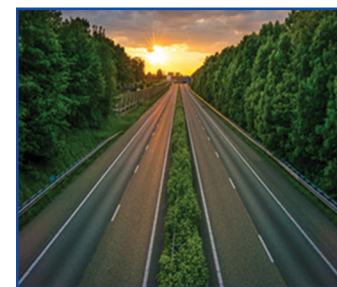

RENEWABLE ENERGY

Phoebosol Technologies has also taken a big initiative in offering renewable energy sources. Be it solar photovoltaic systems, solar LED & lightings or smart lighting systems, Phoebosol is there to help you with great solar solutions.

TOLL PLAZA OPERATIONS & MAINTENANCE

We are a leading player offering cutting edge operation and maintenance solutions for toll plaza and wayside amenities by delivering expert manpower. Toll collection and maintenance of toll plaza assets is also undertaken by us.
