SUPPLY CHAIN & COLD CHAIN SOLUTIONS

We understand the emergence in the rise of storing goods that are vulnerable to climate change and are perishable. It is also essential to safeguard the quality of such products until consumption.

Managing the movement of raw materials from the point of production to the point of consumption is what we handle. We make sure that the supply chain is maintained for uninterrupted service by procurement, product development, warehousing, and workflow management. We also ensure that there is no deterioration in the quality of the product. The supply chain is a specific concept which needs expert supervision. We are always in the business service, with such expert consultation and assistance.

ZALSC provides cold chain solutions, controlling temperature while moving perishable items from one point to another in a series of temperature controlled environment. We ensure that the chain is never broken, so as to preserve the products and not let them hamper. Chemicals, pharmaceuticals, natural and biodegradable substances, agricultural products and seafood items are some of the many industries for whom we provide services that can help them transport their goods. Keeping this need in mind, temperature controlled vehicles is what we provide, so that, our customers do not have to be tensed about their goods while they are in transit.

PLANT & MATERIAL HANDLING

We are experts who can look after the product that a company is thinking of manufacturing, storing or selling at some point in time. From the raw material to the final product ready for consumption, and disposal, we take care of the whole procedure. We offer a one-stop solution to the product-based industry from start to end.

We provide conveyors, cranes, industrial trucks, positioning equipments, storage equipments and other such weighty motors that are at work all day. It is a tough job to switch between workplaces, various loading and disposing areas and from warehouse to warehouse. We make sure that these products are world class and of top quality to achieve the desired output.

Our offerings also include the provision of forklift and hydra machines, tow trucks and hand pallets.

TRASH COLLECTION

Management of trash is a very crucial thing that any product-based industry needs to follow. Ziarmal Asil Logistic Services Company assists in trash collection and carries trash with care, disposing it off in a way that there is no harm to mother nature.

LAUNDRY SERVICES

We provide laundry services to companies. Our latest technologies include advanced machines for cleaning/ dry cleaning, washing and steam ironing. Expert support to these advanced technologies helps sort colors and fabrics that need to be washed in a different condition.

FOOD AND DRINKING ITEMS

A company requires items like water filters, water dispensers, office canteen and kitchen supplies and other essential products. We provide all such food and drinking items to companies.

OTHER SERVICES

GAS & FIREWOOD SERVICES

Commercial fuel-based supply is also one of the things that we offer. ZALSC offers custom cut, quality firewood in different sizes and quantities. Majorly supplying Cedar, Maple, Oak, and Alder woods as company fuel.

TRAVEL INSURANCE, TICKETING & HOTEL BOOKING

For any corporate travel, from booking tickets to hotels, we cater to travel management services for any company, all around the globe. Along with this, we also provide travel insurance for a safe travel.

IMMIGRATION SERVICE

When a company thinks of expanding their products or services further in different countries, there are many complications involved with the procedure. To help, we offer assistance to the companies that want to settle down in some other nation to build their future. All sorts of immigration services can be availed from our experts.
